

Collection: 018001; Video Rate:29.97 fps; Master Digital Formats: 1920 x 1080 Uncompressed 10-bit 4:2:2. Prores(HQ); Acquisition Format: 35mm. Film

018001-EX02C009: Silicone model of a late developmental stage Lemon Shark. BCU from below mouth. Opening and closing. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C010: Silicone model of a late developmental stage Lemon Shark. BCU from below mouth. Opening and closing. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C014: Silicone model of a late developmental stage Lemon Shark. Wide view of pelvic fins, claspers and anal fin from below. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C015: Silicone model of a late developmental stage Lemon Shark. Wide view of tail and then move to pelvic fins, claspers and anal fin from below. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C016: Silicone model of a late developmental stage Lemon Shark. Wide view of pelvic fins, claspers, anal fin and tail.Profile. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C019: Silicone model of a late developmental stage Lemon Shark. CU tail moving slowly. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C020: Silicone model of a late developmental stage Lemon Shark. Wide tail moving slowly. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C032: Silicone model of a late developmental stage Lemon Shark. Wide dorsal view of fins. Tail slowly moving. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C036: Silicone model of a late developmental stage Lemon Shark. Wide profile view of dorsal fin and tail within membranes. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C037: Silicone model of a late developmental stage Lemon Shark. Wide view of head in profile. Shark moves past camera to show gill slits Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C041: Silicone model of a late developmental stage Lemon Shark. Wide semi profile view of head as shark moves jerkily and lunges past camera. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C042: Silicone model of a late developmental stage Lemon Shark. CU semi profile view of head as shark moves jerkily and lunges past camera to show gill slits. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C044: Silicone model of a late developmental stage Lemon Shark. Wide view of front third of body. Profile with head slightly down in frame. Mouth open. Jerky movement drive the shark forwards to centre gill slits and pectoral fins in frame. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C045: Silicone model of a late developmental stage Lemon Shark. CU gill slits and surface texture. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C047: Silicone model of a late developmental stage Lemon Shark. Wide view of the tail and rear of body looking past dorsal fin. Body is folded by cramped confines of the uterus. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C048: Silicone model of a late developmental stage Lemon Shark. Wide view of the tail and rear of body looking past dorsal fin. Body is folded by cramped confines of the uterus. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C052: Silicone model of a late developmental stage Lemon Shark. Semi-profile mid view of side and dorsal fin. Move backwards to head. CU mouth as foetus rolls away from camera slightly. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C053: Silicone model of a late developmental stage Lemon Shark. Wide view looking forwards from the side of the shark showing gill slits, pectoral fin and head. Move backwards towards tail. Shark swims forward at the end. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX02C054: Silicone model of a late developmental stage Lemon Shark. CU dorsal view showing rear dorsal fin with move to tail. Endoscopic lighting. Telecine 24fps converted to 29.97 (with pulldown).

018001-EX03C089: Silicone model of a late developmental stage Lemon Shark. Mid view head on with mouth opening and closing. Shark active within confining membranes. Move in to CU mouth. Endoscopic lighting.

018001-EX03C090: Silicone model of a late developmental stage Lemon Shark. CU mouth opening and closing. Endoscopic lighting.

018001-EX03C091: Silicone model of a late developmental stage Lemon Shark. Wide head on to shark. Move in to CU pectoral fin and gills. Endoscopic lighting.

018001-EX03C092: Silicone model of a late developmental stage Lemon Shark. Profile CU mouth opening and closing. Endoscopic lighting.

018001-EX03C093: Silicone model of a late developmental stage Lemon Shark. Profile CU mouth opening and closing. Move down to placenta and back up again. Endoscopic lighting.

018001-EX03C095: Silicone model of a late developmental stage Lemon Shark. Wide obliquely head on to shark. Move in to CU mouth opening and closing. Endoscopic lighting.

018001-EX03C096: Silicone model of a late developmental stage Lemon Shark. Profile CU mouth opening and closing. Move in to BCU eye. Endoscopic lighting.

018001-EX03C097: Silicone model of a late developmental stage Lemon Shark. CU gill slits. Profile. Move up to head and mouth. Move back to gill slits. Endoscopic lighting.

018001-EX03C098: Silicone model of a late developmental stage Lemon Shark. Dorsal view tail swimming slowly. Move up tail to show placenta. Endoscopic lighting.

018001-EX03C099: Silicone model of a late developmental stage Lemon Shark. Wide dorsal moving to semi profile view tail swimming slowly. Camera drifts out and back in. Endoscopic lighting.

018001-EX03C100: Silicone model of a late developmental stage Lemon Shark. Medium view from slightly below body (profile) of pelvic and anal fins with claspers. Endoscopic lighting.

018001-EX03C103: Silicone model of a late developmental stage Lemon Shark. Wide view from behind tail of slow swimming movements. Endoscopic lighting.

018001-EX03C104: Silicone model of a late developmental stage Lemon Shark. Wide view from behind tail of slow swimming movements. Endoscopic lighting.

018001-EX03C105: Silicone model of a late developmental stage Lemon Shark. Wide view. Confused movement as shark turns from view of tail to the head. Endoscopic lighting.

018001-EX03C106: Silicone model of a late developmental stage Lemon Shark. CU head with shark wriggling actively. Tail is by the head to start. Endoscopic lighting.

018001-EX03C107: Silicone model of a late developmental stage Lemon Shark. Wide view. Movement as shark turns from profile view of the tail to the head facing camera. Endoscopic lighting.

018001-EX03C108: Silicone model of a late developmental stage Lemon Shark. Wide view. Shark curled up with tail beside the head, Wriggling with head towards camera. Endoscopic lighting.

018001-EX03C109: Silicone model of a late developmental stage Lemon Shark. BCU camera moving backwards over dorsal surface to head. Endoscopic lighting.

018001-EX03C110: Silicone model of a late developmental stage Lemon Shark. Shark lunging at camera and sliding underneath. Endoscopic lighting.

018001-EX03C121: Silicone model of a late developmental stage Lemon Shark. CU Profile move from pectoral fin and gills to head. Mouth opens and closes. Shark moves away off frame. Endoscopic lighting. Blue pole visible above head.

018001-EX03C122: Silicone model of a late developmental stage Lemon Shark. CU profile. Move from gills to mouth. Mouth opens and closes as shark turns slightly towards camera and then moves off. Endoscopic lighting. Blue pole visible above head.

018001-EX03C124: Silicone model of a late developmental stage Lemon Shark. BCU profile. Move over skin past gills to mouth. Mouth opens and closes. Shark moves off. Endoscopic lighting.

018001-EX03C126: Silicone model of a late developmental stage Lemon Shark. BCU profile. Move over skin past gills to mouth. Mouth opens and closes. Shark moves off. Endoscopic lighting. Blue pole visible above head.

018001-EX03C128: Silicone model of a late developmental stage Lemon Shark. CU profile. Move over skin past gills to mouth. Mouth opens and closes. Shark moves off. Endoscopic lighting. Blue pole visible above head.

018001-EX03C129: Silicone model of a late developmental stage Lemon Shark. CU profile. Move from gills to eye and mouth. Mouth opens and closes. Shark moves off. Endoscopic lighting.

018001-EX03C130: Silicone model of a late developmental stage Lemon Shark. CU profile. Move up body to head. Shark thrashing actively and flicks away. Endoscopic lighting. Blue pole visible above head.

018001-EX03C131: Silicone model of a late developmental stage Lemon Shark. CU profile. Move up body to BCU eye and mouth. Shark thrashing actively and flicks away. Endoscopic lighting. Blue pole visible above head.

018001-EX03C132: Silicone model of a late developmental stage Lemon Shark. CU profile. Move up body to BCU eye and mouth. Shark thrashing actively with mouth opening and flicks away. Endoscopic lighting. Blue pole visible above head.

018001-EX03C136: Silicone model of a late developmental stage Lemon Shark. CU floating hold gill slits. Move up to CU profile eye. Shark swims away. Endoscopic lighting.

018001-EX03C139: Silicone model of a late developmental stage Lemon Shark. Medium view. Thrashing tail. Move up body to head as shark flicks away. Endoscopic lighting.

018001-EX03C140: Silicone model of a late developmental stage Lemon Shark. CU. Thrashing tail. Move up body to head as shark flicks away. Endoscopic lighting.

018001-EX03C142: Silicone model of a late developmental stage Lemon Shark. CU. Thrashing tail. Move up body to head as shark flicks away. Endoscopic lighting.

018001-EX07C168: Silicone model of a late developmental stage Lemon Shark. Medium view looking at top of head. Shark quiescent. Head towards camera. Endoscopic lighting. Graded to look midway between mid and late stage shark.

018001-EX07C171: Silicone model of a late developmental stage Lemon Shark. CU top/side of head with eye as shark faces camera. Camera moves around to profile view of head. Shot ends as shark gives active wriggle. Endoscopic lighting. Graded to look midway between mid and late stage shark.

018001-EX07C172: Silicone model of a late developmental stage Lemon Shark. CU profile head. Shark lunges and hits camera. As it relaxes shot reveals gill viewed oblique profile from head. Endoscopic lighting. Graded to look midway between mid and late stage shark.

018001-EX07C174: Silicone model of a late developmental stage Lemon Shark. CU head viewed from below and semi profile. Shark lunges past camera revealing gill slits and pectoral fin.. Endoscopic lighting. Graded to look midway between mid and late stage shark.
