

Collection: 018005; Video Rate:29.97 fps; Master Digital Formats: 1920 x 1080 Uncompressed 10-bit 4:2:2. Prores(HQ); Acquisition Format: 35mm. Film

018005-EX03C002: Silicone model of a mid developmental stage Lemon Shark. CU. Move over placenta to head of resting shark. Shark reacts and moves towards camera. Toplight/Backlight

018005-EX03C003: Silicone model of a mid developmental stage Lemon Shark. BCU eye. Shark swims forward to show gill slits and pectoral fin. Pull wide to head and drift along body past dorsal fin to tail. Second dorsal and pelvic fins also visible. Toplight/Backlight

018005-EX03C004: Silicone model of a mid developmental stage Lemon Shark. CU dorsal view showing dorsal and pectoral fins with placenta glimpsed below. Toplight/Backlight

018005-EX03C014: Silicone model of a mid developmental stage Lemon Shark. Wide oblique top view. Shark horizontal across frame. Track in to head and eye. Shark reacts to light with jerky twitching. Endoscopic lighting

018005-EX03C016: Silicone model of a mid developmental stage Lemon Shark. Mid view. Shark vertical in framewith head at bottom of frame. Move over dorsal surface from head to tail. Endoscopic lighting

018005-EX03C017: Silicone model of a mid developmental stage Lemon Shark. BCU eye. Head in profile. Move to CU gills and pectoral fin. Jerky reaction movements. Endoscopic lighting

018005-EX03C018: Silicone model of a mid developmental stage Lemon Shark. BCU from underside of shark. Mouth, eye, nostril, gills, pectoral fin and umbilicus. Endoscopic lighting

018005-EX03C019: Silicone model of a mid developmental stage Lemon Shark. CU. Move from placenta along umbilical cord to umbilicus and gills viewed from below. Endoscopic lighting

018005-EX03C020: Silicone model of a mid developmental stage Lemon Shark. Mid view looking up, rotating hold of placenta and umbilical cord. Tail of shark also in shot. Endoscopic lighting

018005-EX03C022: Silicone model of a mid developmental stage Lemon Shark. Mid view along underside of shark looking past pectoral fins and umbilicus towards head. Camera reverse down body to tail and placenta then travels forwards to start position. Shark twitches and wriggles during shot. Endoscopic lighting

018005-EX03C023: Silicone model of a mid developmental stage Lemon Shark. Mid view along underside of shark looking past pectoral fins and umbilicus towards head. Camera reverse down body to tail and placenta then travels forwards to start position. Shark quiescent during shot. Endoscopic lighting

018005-EX03C024: Silicone model of a mid developmental stage Lemon Shark. Mod view. Lateral move along body of the shark from pectoral area to anal area and back towards the head. Shark quiescent. Endoscopic lighting

018005-EX03C025: Silicone model of a mid developmental stage Lemon Shark. Wide view. Lateral move along body of the shark from tail to the pectoral area. Shark quiescent apart from initial tail flick. Endoscopic lighting

018005-EX03C027: Silicone model of a mid developmental stage Lemon Shark. Wide view. Lateral move from slightly below body along the shark from tail to the pectoral area. Shark quiescent apart from initial tail flick and twitch at the end.. Endoscopic lighting

018005-EX03C028: Silicone model of a mid developmental stage Lemon Shark. BCU eye. Head in profile. Endoscopic lighting

018005-EX03C029: Silicone model of a mid developmental stage Lemon Shark. CU eye. Head in profile. Shark drifts forward to reveal gill slits. Endoscopic lighting

018005-EX03C031: Silicone model of a mid developmental stage Lemon Shark. Wide oblique lateral view starts with eye in foreground and travels down body to tail. Tail flicking at the end. Endoscopic lighting

018005-EX03C033: Silicone model of a mid developmental stage Lemon Shark. Wide oblique lateral view starts with eye in foreground and travels down body to tail. Tail flicking at the end. Endoscopic lighting

018005-EX03C063: Silicone model of a mid developmental stage Lemon Shark. CU head on to camera. Wriggling shark. Camera pulls wider and moves down to gills as shark continues to move around. Endoscopic lighting

018005-EX03C064: Silicone model of a mid developmental stage Lemon Shark. CU head in profile. Move past gills to dorsal fin. Shark slowly rolls to reveal underside of pectoral fin, gills and umbilicus. Rolls back to BCU eye. Endoscopic lighting

018005-EX03C065: Silicone model of a mid developmental stage Lemon Shark. Mid view of curled body which suddenly straightens to show tail. Move forward to latero-dorsal view of dorsal fin area. Endoscopic lighting

018005-EX03C068: Silicone model of a mid developmental stage Lemon Shark. Wide latero-dorsal view of front of body from above dorsal fin. Move backwards down to tail which flicks strongly. Endoscopic lighting

018005-EX03C069: Silicone model of a mid developmental stage Lemon Shark. Mid view. Lateral view. Move along body from head to tail. Endoscopic lighting

018005-EX03C070: Silicone model of a mid developmental stage Lemon Shark. Move along tail area. Mid view. Tail flicks at the end. Endoscopic lighting

018005-EX03C071: Silicone model of a mid developmental stage Lemon Shark. CU underside of body in pelvic fin area with claspers. Move to tail which flicks strongly. Endoscopic lighting

018005-EX03C072: Silicone model of a mid developmental stage Lemon Shark. Move up underside of the body from pelvic fins and claspers to the mouth. Some movements of shark. Endoscopic lighting

018005-EX03C073: Silicone model of a mid developmental stage Lemon Shark. Mid view/ CU head facing camera viewed from underside. Mouth prominent. Wiggles and jerks of shark. Camera moves around to the side to see gills and pectoral fin. Endoscopic lighting

018005-EX03C078: Silicone model of a mid developmental stage Lemon Shark. Wide view of shark resting on placenta. Floating hold. Endoscopic lighting

018005-EX07C092: Silicone model of a mid developmental stage Lemon Shark. Wide view past dorsal fin of tail beating slowly. Endoscopic lighting

018005-EX07C093: Silicone model of a mid developmental stage Lemon Shark. CU Looking down on dorsal surface of head within membranes . Endoscopic lighting

018005-EX07C094: Silicone model of a mid developmental stage Lemon Shark. Mid view looking down on dorsal surface. Slow move from head to dorsal fin. Shark swimming slowly. Endoscopic lighting

018005-EX07C096: Silicone model of a mid developmental stage Lemon Shark. Wide view past dorsal fin towards tail. Move down to tail which is slowly swimming. Placenta visible below tail. Endoscopic lighting

018005-EX07C097: Silicone model of a mid developmental stage Lemon Shark. Mid lateral view. Move forwards up body to head. Placenta visible below body. Camera pulls away to wider view of dorsal surface of shark. Endoscopic lighting

018005-EX07C100: Silicone model of a mid developmental stage Lemon Shark. Mid view tail swimming. Endoscopic lighting

018005-EX07C103: Silicone model of a mid developmental stage Lemon Shark. CU eye. Move to gill slits. Head in profile. Endoscopic lighting

018005-EX07C104: Silicone model of a mid developmental stage Lemon Shark. Mid view eye. Head in profile. Endoscopic lighting

018005-EX07C108: Silicone model of a mid developmental stage Lemon Shark. CU nostril, mouth and eye from front of head and below. Move along underside of body to pelvic fins. Endoscopic lighting

018005-EX07C109: Silicone model of a mid developmental stage Lemon Shark. Mid view from directly underneath body. Move from pelvic fins and claspers to head showing mouth. Endoscopic lighting

018005-EX07C110: Silicone model of a mid developmental stage Lemon Shark. CU lateral view gill slits. Move to eye. Endoscopic lighting

018005-EX07C113: Silicone model of a mid developmental stage Lemon Shark. Move along umbilical cord to placenta. Endoscopic lighting

018005-EX07C114: Silicone model of a mid developmental stage Lemon Shark. Move along umbilical cord to placenta. Endoscopic lighting

018005-EX07C115: Silicone model of a mid developmental stage Lemon Shark. Mid profile view head. Endoscopic lighting

018005-EX07C116: Silicone model of a mid developmental stage Lemon Shark. Wide view front half of shark's body in profile. Move down to placenta on wall of the uterus. Endoscopic lighting

018005-EX07C118: Silicone model of a mid developmental stage Lemon Shark. Wide view of placenta on wall of the uterus. Endoscopic lighting

018005-EX07C119: Silicone model of a mid developmental stage Lemon Shark. Mid view shark's head in profile. Move down to placenta on wall of the uterus. Endoscopic lighting

018005-EX07C120: Silicone model of a mid developmental stage Lemon Shark. Wide view of shark with placenta on wall of the uterus. Move in to placenta surface. Endoscopic lighting

018005-EX07C121: Silicone model of a mid developmental stage Lemon Shark. Top view moving over placenta surface. Endoscopic lighting

018005-EX07C123: Silicone model of a mid developmental stage Lemon Shark. Wide view of shark with placenta on wall of the uterus. Move in to shark's head. Endoscopic lighting

018005-EX07C124: Silicone model of a mid developmental stage Lemon Shark. Top view CU. Moving from placenta surface to shark and back to placenta. Endoscopic lighting

018005-EX07C126: Silicone model of a mid developmental stage Lemon Shark. CU surface of placenta. Move up to umbilicus. Endoscopic lighting

018005-EX07C134: Silicone model of a mid developmental stage Lemon Shark. Top view of placenta. Mid shot. Shark drops from top of frame and settles on placenta. Endoscopic lighting

018005-EX07C137: Silicone model of a mid developmental stage Lemon Shark. Top view CU. Shark head with umbilical cord and placenta. Endoscopic lighting
