018016-EX06C055: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view of entire chick recumbent on the yolk sac with surrounding chorion. Ventral view. Move in to CU top of head and beak. Camera rotates during shot. Heartbeat visible. Trans-illuminated through the egg.

018016-EX06C056: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view of entire chick recumbent on the yolk sac with surrounding chorion. Ventral view. Move in to CU top of head and beak. Camera rotates during shot. Then move down to flipper and feet in the foreground. Heartbeat visible. Trans-illuminated through the egg.

018016-EX06C057: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view profile. Move from head to flipper. Trans-illuminated through the egg.

018016-EX06C058: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU move from yolk sac along umbilical cord to head. View down onto top of head. Eye visible. Heartbeat. Trans-illuminated through the egg.

018016-EX06C059: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile mid body with flipper moving. Pan onto head with CU eye. Trans-illuminated through the egg.

018016-EX06C060: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view past top of head down towards centre of body. BCU eye in foreground. Head and flippers all moving. Trans-illuminated through the egg.

018016-EX06C061: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view past top of head down towards centre of body. BCU eye in foreground. Head and flippers all moving. Camera moves to CU flipper moving. Trans-illuminated through the egg.

018016-EX06C062: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU side of the head. View across head in foreground with body (ventral surface) behind. Shot centred on the ear. Trans-illuminated through the egg.

018016-EX06C063: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU frontal view of the head. Move down to flippers. Trans-illuminated through the egg.

018016-EX06C065: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view looking up the ventral surface to the head from below the feet. Move into BCU eye from front of head. Trans-illuminated through the egg.

018016-EX06C066: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU eye (head in profile). Move over beak and down to flipper then feet. Gentle kicks of the feet. Trans-illuminated through the egg. Wire visible.

018016-EX06C067: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU move from yolk sac along short umbilical chord to the head. Heartbeat. Trans-illuminated through the egg. Wire visible.

018016-EX06C068: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view head in semi profile. Move across to yolk sac and the junction of the umbilical cord. Move in to CU on junction of umbilical cord and yolk sac. Heartbeat. Trans-illuminated through the egg. Wire visible.

018016-EX06C069: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU from between feet of flipper and the umbilicus. Move along umbilical cord to yolk sac. CU. Heartbeat. Trans-illuminated through the egg. Wire visible.

018016-EX06C070: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU from between feet of flipper and the umbilicus. Move along umbilical cord to yolk sac. CU. Heartbeat. Trans-illuminated through the egg. Wire visible.

018016-EX06C071: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view semi profile. Move down leg and on to the tail with developing feathers. Body moves about. Trans-illuminated through the egg.

018016-EX06C073: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view of head (slightly top view). Move over head and yolk sac to chorion lining the inside of the shell. Show blood vessels. Track back to head. Trans-illuminated through the egg.

018016-EX06C074: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view top of head resting on yolk sac. Heartbeat. Trans-illuminated through the egg.

018016-EX06C075: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Move out from CU top of head to mid view of whole head with top of body. Trans-illuminated through the egg.

018016-EX06C076: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile beak. Resting. Floating hold. Trans-illuminated through the egg.

018016-EX06C077: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile. Move from eye to flipper with upper leg. Trans-illuminated through the egg.

018016-EX06C078: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile. Move from eye to flipper with upper leg. Flipper moves. Trans-illuminated through the egg.

018016-EX06C079: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Move over chorion and then onto chick's head. Top frontal view with both eyes visible. Trans-illuminated through the egg.

018016-EX06C080: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view up ventral surface from below feet. Move towards head to top frontal view with both eyes visible. Trans-illuminated through the egg.

018016-EX06C081: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU eye from frontal view. Trans-illuminated through the egg.

018016-EX06C082: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU semi-profile. Move from eye to beak with umbilical cord. Trans-illuminated through the egg.

018016-EX06C085: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view with CU foreground foot and chick body behind. Foot twitches and then move to other foot that also twitches. Trans-illuminated through the egg.

018016-EX06C086: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile foot jerking. Move up the profile of the body to the eye (head in profile). Trans-illuminated through the egg. Dirty shot. Some hairs.

018016-EX06C087: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. View across and up body .CU on wing and move over the dorsal surface to CU tail. Trans-illuminated through the egg.

018016-EX06C088: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU tail from dorsal side showing emerging of the tail feathers. Trans-illuminated through the egg.
