

Collection: 023001; Video Rate:29.97 fps; Master Digital Formats: 1920 x 1080 Uncompressed 10-bit 4:2:2. Prores(HQ); Acquisition Format: RAW Digital

023001-A006C001: Silicone model 12 week foetus. Ectopic. Wide pan left from gut to foetus within membrane. Endoscopic single beam. Clean.

023001-A006C002: Silicone model 12 week foetus. Ectopic. Pan left into body cavity and gut from CU on foetus in membrane. Endoscopic single beam. Clean

023001-A006C003: Silicone model 12 week Foetus. Tilt down from liver over the foetus visible within its membrane and then pan right into body cavity and gut. Endoscopic single beam. Clean

023001-A006C004: Silicone model 12 week Foetus. CU profile head looking down and appearing to suck thumb. Endoscopic single beam. First part of shot clean.

023001-A006C005: Silicone model 12 week Foetus. Mid shot of body. Pan legs to feet and back up to head. Foetus lying horizontally head towards left of frame. Long hold on head with slow rotational move at end of shot. Endoscopic single beam. Clean shot with few particles. Smooth move

023001-A006C006: Silicone model 12 week foetus. CU face with head towards top right of frame. Hand twitches at start of shot. Pan off onto ectopic placenta via umbilical chord. End on gut Endoscopic single beam. Clean shot with few particles. Smooth move

023001-A006C008: Silicone model 12 week foetus Track off placenta onto foetus and reveal head amongst loops of gut Endoscopic single beam. Clean shot with few particles. Smooth move

023001-A006C009: Silicone model 12 week foetus Track off placenta onto foetus and reveal head od foetus amongst loops of gut Endoscopic single beam. Clean shot with few particles. Smooth move

023001-A006C011: Silicone model 12 week Foetus Floating around the edge of the ectopic placenta. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C015: Silicone model 12 week foetus. CU face. Head lying on placenta and rolls mid shot. Head towards left. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C016: Silicone model 12 week Foetus. CU head and forearm head to top of frame. Track in to BCU of head on placenta and BCU eyes and nose. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C017: Silicone model 12 week Foetus. CU face with umbilicus across mouth. Pan over face and umbilicus onto placenta. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C018: Silicone model 12 week Foetus. View from top of face down with head towards left of frame.. Umbilicus visible in foreground. Track backwards to reveal placenta and liver. Track back in to show foetus with liver and gut. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C019: Silicone model 12 week foetus. Wide view of foetus in gut. View beneath foetus with head towards top of frame. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C020: Silicone model 12 week Foetus. Track in though loops of gut to reveal head within them. Head towards top of frame. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C022: Silicone model 12 week Foetus. Tracks in and out though loops of gut to reveal head within them. Head towards top of frame. Several tracks. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C023: Silicone model 12 week Foetus. Track in though loops of gut to reveal head within them. Head towards top of frame. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C025: Silicone model 12 week Foetus. Wide vie of tangle of gut with foetus entangled in loops. Endoscopic single beam. Clean shot few particles floating move.

023001-A006C026: Silicone model 12 week Foetus. Track in through loops of gut to reveal head within them. Head towards top of frame. Some foetal twitches and movements. Endoscopic single beam. Nice shot. Clean few particles. Floating moves.

023001-A006C027: Silicone model 12 week Foetus. CU head and forearm head to top of frame. Profile view foetus facing top right lying on its back. Mid shot rolls towards camera. Nice squeezing by gut. Big hair 30 sec in. Endoscopic single beam. Some hairs floating through shot. Some nice hair free sections though.

023001-A006C028: Silicone model 12 week Foetus. Wide head and forearm within tangle of intestine. Head to top left of frame. Profile view foetus facing top right lying on its back. Endoscopic single beam. Clean shot. Few particles.

023001-A006C029: Silicone model 12 week Foetus. CU face and forearm head to top left of frame. Profile view foetus facing top right lying on its back. within folds of gut. Endoscopic single beam. Clean shot. Few particles.

023001-A006C030: Silicone model 12 week Foetus. CU face and forearm from above. Head to bottom left of frame. Foetus facing top right lying on its back. within folds of gut. Arm twitch at the end of the shot. Endoscopic single beam. Clean shot. Few particles.

023001-A006C031: Silicone model 12 week Foetus. Mid view face and forearm from above. Head to bottom left of frame. Foetus facing top right lying on its back. within folds of gut. Gut squeezing and foetus rolls away from the camera halfway through the shot. Close profile of face to end. Endoscopic single beam. Clean shot. Few particles.

023001-A006C033: Silicone model 12 week Foetus. Wide track through intestines to reveal profile foetus at the end. Head to left of frame facing top of frame. Endoscopic single beam. Clean shot. Few particles.

023001-A006C034: Silicone model 12 week Foetus. Mid shot. track through intestines to reveal top of foetus head at the end. Foetus facing bottom of frame. Endoscopic single beam. Clean shot. Few particles.

023001-A006C035: Silicone model 12 week Foetus. Mid shot. track through intestines to reveal top of foetus head at the end. Foetus facing bottom of frame. Endoscopic single beam. Clean shot. Few particles.

023001-A006C036: Silicone model 12 week Foetus. Mid shot. View top of foetus head floating hold. Foetus facing bottom right of frame. Endoscopic single beam. Clean shot. Few particles.

023001-A006C037: Silicone model 12 week Foetus. Mid shot. Foetus turned slightly to right of frame, head towards top of frame. Pull away to lose in intestines. Track back in. Endoscopic single beam. Generally clean shot. Few particles. Hair through top of shot midway through.

023001-A010C016: Silicone model 12 week foetus. Slow move towards top of the head and face. Endoscopic, single beam. Clean

023001-A010C019: Silicone model 12 week foetus. Foetus on side head right of frame. Profile view of head with some bouncy foetal moves. Pull out to reveal head profile in wider view at the end. Umbilical chord in foreground. Endoscopic, single beam. Clean.

023001-A010C020: Silicone model 12 week Foetus. Ventral view low angle top half of body. Convulsive twitches. Endoscopic, single beam. Clean.

023001-A010C021: Silicone model 12 week foetus. Start on right ear and rotate around head to face. Later move in BCU around eyes nose and hands. Some twitches in close up. Endoscopic single beam. Hair through shot near start and at the end but good movements.

023001-A010C033: Silicone model 12 week foetus. Rotate from face to right ear and back to left. General float on full face. Endoscopic single beam. Clean. Nice view.

023001-A010C035: Silicone model 12 week foetus. Move from horizontal sleep position (head right frame) to diagonal on face and back to horizontal. Endoscopic single beam. Clean.

023001-A010C036: Silicone model 12 week Foetus. Ventral view low angle top half of body. Convulsive twitches. Endoscopic single beam. Clean.

023001-A010C039: Silicone model 12 week foetus. Drift towards low angle CU of face with right forearm in foreground. Ends with pull focus BCU left hand on right of screen with left eye behind. Low angle. Endoscopic single beam. Clean. Focus pull is after pause and exposure change.

023001-A010C042: Silicone model 12 week Foetus. Profile CU left eye and hand. Arm movement. Pan down to ear and back up. Endoscopic single beam. Last half of shot only useful.

023001-A010C044: Silicone model 12 week foetus. Foot kicking membrane. Track up left side of body to hands and face. Not quite full profile. Endoscopic single beam. NG

023001-A010C046: Silicone model 12 week foetus. Foot kicking membrane. Track up left side of body to hands and face. Not quite full profile. Endoscopic single beam. NG

023001-A010C047: Silicone model 12 week foetus. Foot kicking membrane. Track up left side of body to hands and face. Not quite full profile. Endoscopic single beam. NG

023001-A010C048: Silicone model 12 week foetus. Foot kicking membrane. Track up left side of body to hands and face. Not quite full profile. Endoscopic single beam. Clean.
