023005-A008C001: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head to right of frame. Mid wide view. From knee to head. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C002: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head to right of frame. Pull away fro face surrounded by gut. Baby squeezes body upwards. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C003: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head away from camera. View of feet in foreground. Feet and legs moving. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C004: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head away from camera. Pull off gut onto feet, viewed from below. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C005: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head away from camera. BCU hands moving surrounded by gut. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C008: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Mid wide shot. Baby horizontal lying on left side facing camera. With head to right of frame. Endoscopic lighting. Dark. Medium particle density. Some hairs through shot.

023005-A008C011: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Wide. Baby horizontal lying on its back with head bottom of frame. Gut moving baby quiet. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C013: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head bottom of frame. BCU hands. Small movements. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C014: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head bottom of frame. Mid view of arms moving. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C018: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head bottom of frame. Track off moving gut onto body. Quiet. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots. Hair through shot.

023005-A008C020: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head bottom of frame. CU hands with less subtle movements. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots. Hairs float through frame.

023005-A008C023: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head to left of frame. CU track from ear to face in profile. Head and hand squeezing movements. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C024: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head to left of frame. BCU with arms squeezing up to mouth. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C025: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its right side with head to left of frame. Full face BCU face with folded arms. Arms squeezing up to face. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C029: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head to left of frame. Track over legs onto liver. Track back to face from liver. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A008C030: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head to left of frame. Track over legs onto liver. Track back to face from liver. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A009C031: Silicone model 24 week foetus with tumour present. 3/4 profile with head bottom left of frame. Concentration mostly on tumour and legs. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C032: Silicone model 24 week foetus with tumour present. 3/4 profile with head bottom left of frame. Concentration mostly on tumour and legs. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C036: Silicone model 24 week foetus with tumour present. BCU scalpel incision in membrane. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C038: Silicone model 24 week foetus with tumour present. BCU scalpel incision in membrane. Gloved fingers enter through incision. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C039: Silicone model 24 week foetus with tumour present. CU fingers reach around tumour. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C041: Silicone model 24 week foetus with tumour present. CU. Fingers reach around tumour. Profile with head bottom left of frame. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C042: Silicone model 24 week foetus with tumour present. CU. Fingers reach around tumour. Profile with head bottom left of frame. Backlit through membrane to give the feel of light coming from an incision. Water clear. Few particles. Some air bubbles visible on silicon of tumour.

023005-A009C043: Silicone model 24 week foetus with tumour present. CU. Fingers reach around tumour Profile with head bottom left of frame. Endoscopic lighting. Water clear. Low to medium articles.

023005-A009C044_A: Silicone model 24 week foetus with tumour present. Wide shot. Fingers reach around tumour. Profile with head bottom left of frame. Foetus head more towards camera. Endoscopic lighting. Water clear. Low to medium articles.

023005-A009C044_B: Silicone model 24 week foetus with tumour present. Wide shot. Fingers reach around tumour. Profile with head bottom left of frame. Foetus head more towards camera. Endoscopic lighting. Water clear. Low to medium articles.

023005-A009C045: Silicone model 24 week foetus with tumour present. Wide shot. Fingers reach around tumour. Foetus head towards camera lying slightly on right side. Endoscopic lighting. Water clear. Low to medium articles.

023005-A009C046: Silicone model 24 week foetus with tumour present. BCU hand on legs very close to camera. Foetus head towards camera lying slightly on right side. Endoscopic lighting. Water clear. Low to medium articles.

023005-A009C047: Silicone model Birth Baby. Caesarean section with surgeons hands. Behind membrane. Endoscopic lighting. Dark shot. Few particles visible in water.

023005-A009C049: Silicone model Birth Baby. Caesarean section with surgeons hands. Behind membrane. Endoscopic lighting. Dark shot. Few particles visible in water.

023005-A009C053: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby horizontal lying on its back with head towards camera. Surgeons hands enter frame and grasp head. Baby pulls towards camera and exits over top of camera. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A009C054: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby upright in frame with head to left of frame. Profile of head in mid wide shot. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A009C055_A: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby upright in frame facing camera. Mid wide view of gloved surgeons hands grasping head and pulling baby up out of the top of frame. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A009C055_B: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby upright in frame facing camera. Mid wide view of gloved surgeons hands grasping head and pulling baby up out of the top of frame. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A009C057: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby upright in frame facing camera. CU of gloved surgeons hands grasping head and pulling baby up out of the top of frame. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.

023005-A009C058: Silicone model Birth Baby. Baby squeezed in coils of gut. ECTOPIC. Baby upright in frame facing camera. CU of gloved surgeons hands grasping head and pulling baby up out of the top of frame. Endoscopic lighting. Few particles visible in water. Slightly murky on wider shots.
